

DIGITAL BUILDING EXPERIENCE

Creating more sustainable and safer urban environments together. Improve brand value and business revenue through providing an innovative and seamless customer experience.

Robot cleaners at your service

Connect your equipment through KONE APIs into Gaussian cleaning robots to reduce maintenance costs and risk of spreading infectious diseases.

Maximize business efficiency

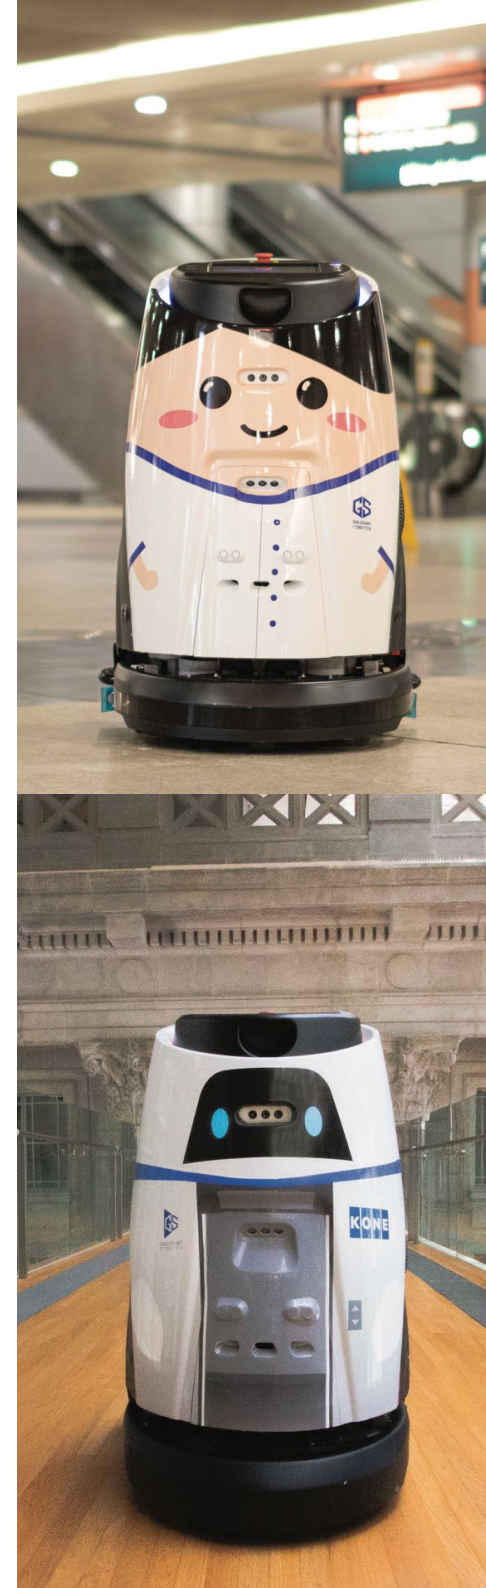

Cleaner environment

Working with 24/7 Connected Services to offer optimized cleaning services based on elevator usage stats per floor

Receive insights to your building equipment usage and people traffic for better informed decision making.

Connecting people

API technology with KONE elevators brings a seamless user experience increasing the sales of building eateries and enabling safe return of people flow to offices and hotels.

With safe distancing

KONE elevators can now be connected through APIs with third party products, i.e. service robot companies opening new opportunities in limiting spread of diseases and increasing revenue of buildings

Positive experience

Service robot can support your building by decreasing delivery employee costs and increasing your brands innovative image resulting in positive end user experience and ratings

Food deliveries

Service robot enables an efficient delivery from building eateries directly into end user floors. This way enabling touchless and hassle free delivery process
