KONE SIGNALIZATION

Our versatile, modern signalization range has everything you need to ensure clear guidance and make elevators as easy as possible for people to use. It includes flush and surface-mounted devices with a huge variety of options to cater for every possible design vision and practical requirement, including vandal-resistant features and options to ensure elevators are accessible for the visually impaired.
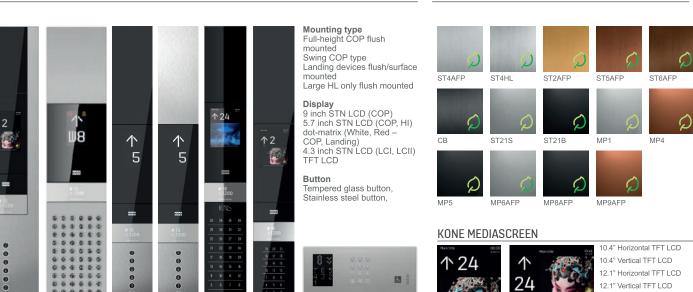

KDS 330 – BUILT FOR TODAY, READY FOR TOMORROW

The flush-mounted KDS 330 signalization family for residential and commercial buildings is a revolution in elevator design. Its modular structure means you can swap out different elements – such as the faceplate, display, and even buttons – to add new functions and create a unique look and feel. KDS330 touchless option available.

KSS 140 – READY FOR ANYTHING

The KSS 140 vandal-resistant signalization family is designed for low and mid-rise buildings where the elevator equipment needs to be able to cope with tough challenges. Everything from the faceplate to the buttons, displays, and even the screws, is designed to be vandal resistant. KSS 140 signalization complies with the EN81-71 (Cat 1) standard for vandal-resistant elevators.
